Testimonial: I have been a member of Oi Cosmetic Studio Helensvale for the past 11 months and within this time I have watched my complexion and skin surpass any expectation I've had of how healthy and glowing it can be. I've always had very bad pigmentation and had tried everything to get rid of it, but it wasn't until I found Oi Cosmetic Studio at Helensvale, where they have transformed my skin and self-confidence. The staff are great, they're highly trained and just want to get the best results for you, as you would yourself. Any questions I've had throughout my membership, they are always there – they have offered my great advice and are very professional. The different between Oi Cosmetics Helensvale and other places I have been, is that they listened to what I wanted and only ever wanted what is best for me. They are a great team of ladies.
