

Case Study: Kate

Kate's main concern before coming to us was Acne. She had not found skincare or treatments to fix this. We did an annual membership consisting of the treatments below and she was very happy with the result. Her skin is now clear and we have re-signed her to a new membership consisting of the below and also including Skin Needling now to work on scarring.

Testimonial: After trailing many skin clinics and spas, I finally found one that has taken the time to tailor a regime that suits MY skin complaints.

The staff at Oi Cosmetic Studio are clearly passionate and knowledgeable in their approach to good skin care. Their honesty and concern with my skin made me feel that having clear, glowing skin was not unattainable. Their staff are personable and their service and client follow up, outstanding. I committed to a membership, knowing that I have invested long term in to the quality of great looking skin! I now choose to use Oi Cosmetic Studio exclusively, and feel relieved to not have to shop around anymore!
